Work Experience:

Software Developer I

at [Redfin](#)

full-time offer rescinded due to COVID-19's effect on the housing market

Online Editor

at [Daily Bruin](#)

Winter 2019 - Present

Project Management: Oversee 4 project leads and their teams (~35 developers) in the creation of websites, internal tools, and data-driven content to support the digital form of the newspaper.

Full-Stack Engineering and Design: Directly lead a group of 6 interns in rebuilding and redesigning our main website's infrastructure and user-experience.

Teaching and Training: Help interns develop their professional web development skills through peer programming and code reviews.

User Growth: Use Analytics platforms, SEO, and Social Media strategies to promote a large-scale website that has over 4,000,000 unique pageviews per year.

Supervisor

at [UCLA Computer Store](#)

Fall 2017 - Present

Team Management: Supervise ~18 employees in a retail environment through task management, scheduling, and conflict resolution.

Hiring and Training: Conduct the full hiring process from applications and interviews through onboarding and training.

Skills:

Coding:

Design:

Language:

Featured Projects:

dailybruin.com

<https://dailybruin.com/>

a new dailybruin.com built from the ground up that's designed to work with a custom CMS.

React.js | HTML/CSS | Next.js | Node.js | PHP | Server Management

2020 Democratic Primaries Package

<https://features.dailybruin.com/2020/democratic-primary-elections/>

an interactive flatpage that required collaboration between several sections of the paper.

React.js | HTML/CSS | RESTful Backend

COVID-19 Dashboard

<https://features.dailybruin.com/2020/covid-19/>

built alone in less than 24 hours, this page is an updating hub for all the newspaper's coronavirus coverage.

React.js | HTML/CSS | RESTful Backend

Activities:

- Member of UCLA Men's Ultimate Frisbee Team
- Recipient of UCLA Alumni Association scholarship
